

PR 600 watt SunWize system, western Wyoming

# SOLAR POWER SOLUTIONS FOR THE OIL & GAS INDUSTRY

SunWize solar power systems provide continuous cost-effective solar power solutions for well-site automation, telecommunications, cathodic protection and security. Complete, integrated systems supply continuous power to critical loads for rapid deployment.

### The Competitive Edge

- Power Ready Systems fully integrated, for continuous loads up to 3000 watts
- Ideal for remote deployments; plug and play systems are pre-wired and pre-assembled for fast field installation
- Rugged construction for reliable performance in remote site environments
- Pre-engineered platform solutions adapted for unique site requirements

### Exceptional Customer Experience

- Dedicated account manager from system design through delivery and lifetime of product
- Engineers with turn-key installation expertise
- Two major distribution centers – New York and California
- Delivery dates you can rely on

SunWize PR360 Power Ready System is used for water level monitoring and pump control

“SunWize excels in providing engineered solutions for today’s demanding solar applications. The 600W and 300W Power Ready Systems are the choice of our customers.”

*Mark Dennis, Application Engineer, PCE Pacific, Inc.*

“Our customers expect us to deliver solutions that provide real value to their business. The engineered solutions and continued support from SunWize is an integral part of our ability to provide those solutions.”

*Dan Smith, Vice-President of Sales, Equipment & Controls, Inc.*

“The system is everything you (SunWize) advertise and installation went quite well.”

*Monte Wilke, Electrical Superintendent, Western Energy*

### “Our systems stand alone, my customers don’t!”

2400 watt SunWize Power Station, cathodic protection
